About

Hi, I am Zaryab. I am a self-taught programmer and currently pursuing a bachelor's in computer science. I am highly motivated to expand my knowledge and aim to become a professional programmer in the future. I am committed to continuously expanding my skill set with a proactive approach to learning and a deep curiosity for emerging technologies.

Projects

[Mystery Message ↗](#)

An anonymous messaging web app built with Next.js, allowing users to securely log in, log out, and send messages while keeping their identity private. Designed for seamless interaction and confidentiality.

[MERN Todo ↗](#)

A feature-rich MERN stack app for efficient note management, allowing users to securely register, log in, and manage notes. Users can create, edit, view, and delete notes for seamless task organization.

[Music Academy ↗](#)

This Next.js web app features a sleek UI, showcasing the company's music courses beautifully and delivering a seamless user experience.
